Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

2. Claims 5 and 50 are rejected under 35 U.S.C. 102(e) as being anticipated by Smith et al (US Patent 6,491,314, of record).

Smith et al discloses a vehicle suspension system comprising axle 90, sleeve 362, 366 (Figure 39) clamped on the axle in a clamped position without press fitting (column 15, lines 15-20, where the plates 362, 366 are compressed about the axle, which is not “press fitting”, where the axle would be forced through the already joined plates), and the sleeve 360 formed of plates 362, 366 welded in the clamped position. In Figure 39, arm 482 is attached to the axle by welding directly to the sleeve at beads 500. The sleeve in Figure 39 is welded to the axle in at least one opening formed laterally through the sleeve (column 18, lines 42-46). Noting applicant’s remarks filed 11/2/04 (bottom of page 17) that Smith et al does not appear to contain any description of how the plates 362, 366 are welded to the axle, Smith et al’s welds are in the opening formed laterally through sleeve 360 inasmuch as applicant’s disclosed invention (i.e., applicant’s drawings do show the weld between the axle and sleeve as being “in” the opening, and in fact page 8, lines 7-8 and lines 16-18 that the weld between the axle and sleeve is “about” the openings and at the lateral ends of the sleeve (if Smith et al’s welds are not “in” the openings, this disclosure would indicate that whether the weld is inside the openings or at the ends of the

Art Unit: 3616

sleeve is equivalent for purposes of applicant's invention and for purposes of the claim means by "in" the opening).

Allowable Subject Matter

3. Claims 1-4, 7, 9-39, 41-45, 47-49, and 53-75 are allowed.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
